Response to Amendment

The examiner acknowledges currently amended claims 1, 7, 13 and 16.

Allowable Subject Matter

Regarding claims 1, 3–5, 13, the prior arts fail to teach or fairly suggest the resonant circuit part comprises a variable capacitance element, and the step of varying the resonant frequency of the resonant circuit part comprising the steps of varying the capacitance of the variable capacitance to have a first capacitance corresponding to a binary "one" and varying the capacitance of the variable capacitance element to have a second capacitance corresponding to a binary "zero" for data to be transmitted to the reader, and such that a power transfer from the resonant circuit part of the memory tag to a resonant circuit part of the reader is substantially the same for both the first capacitance and the second capacitance.

Regarding claims 7-11 and 16-17, the prior arts fail to teach or fairly suggest

the controllable capacitance element is set to have a first capacitance corresponding to a binary "one" and a second capacitance corresponding to a binary "zero" for data to be transmitted to the reader, first capacitance corresponding to a resonant frequency of the resonant circuit part of the memory tag slightly detuned from a resonant frequency of a resonant part of the reader in a first direction, the second capacitance corresponding to a

resonant frequency of a resonant circuit part of the memory tag slightly detuned from a resonant frequency of a resonant circuit part of the reader in a second direction opposite to the first direction.

Allowable Claims

Amended claims 12, 14-15 and 18 are allowed previously.

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matsuichiro Shimizu whose telephone number is 571–272–3066. The examiner can normally be reached on Monday through Friday from 8:00 AM to 4:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wendy Garber, can be reached on 571–272–7308. The fax phone number for the organization where this application or proceeding is assigned is 571–273–3068.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703-305-8576).
